

# Addressing Asthma within the Context of IEDOH

November 10, 2023

Anne Kelsey Lamb, MPH, Director  
Regional Asthma Management & Prevention,  
a project of the Public Health Institute

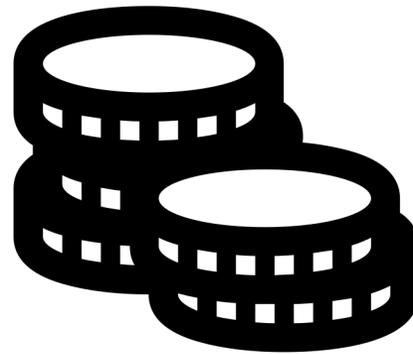

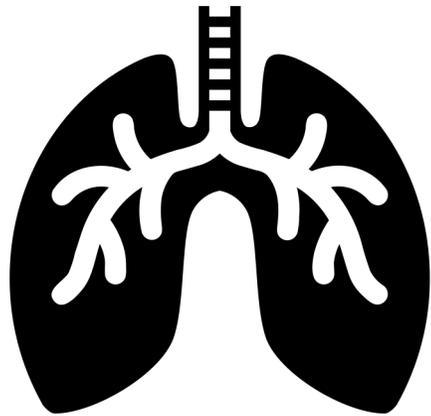

RAMP's mission is to reduce the burden of asthma with a focus on health equity. Emphasizing both prevention and management, we build capacity, create linkages, and mobilize networks to advocate for policy and systems changes targeting the root causes of asthma disparities.

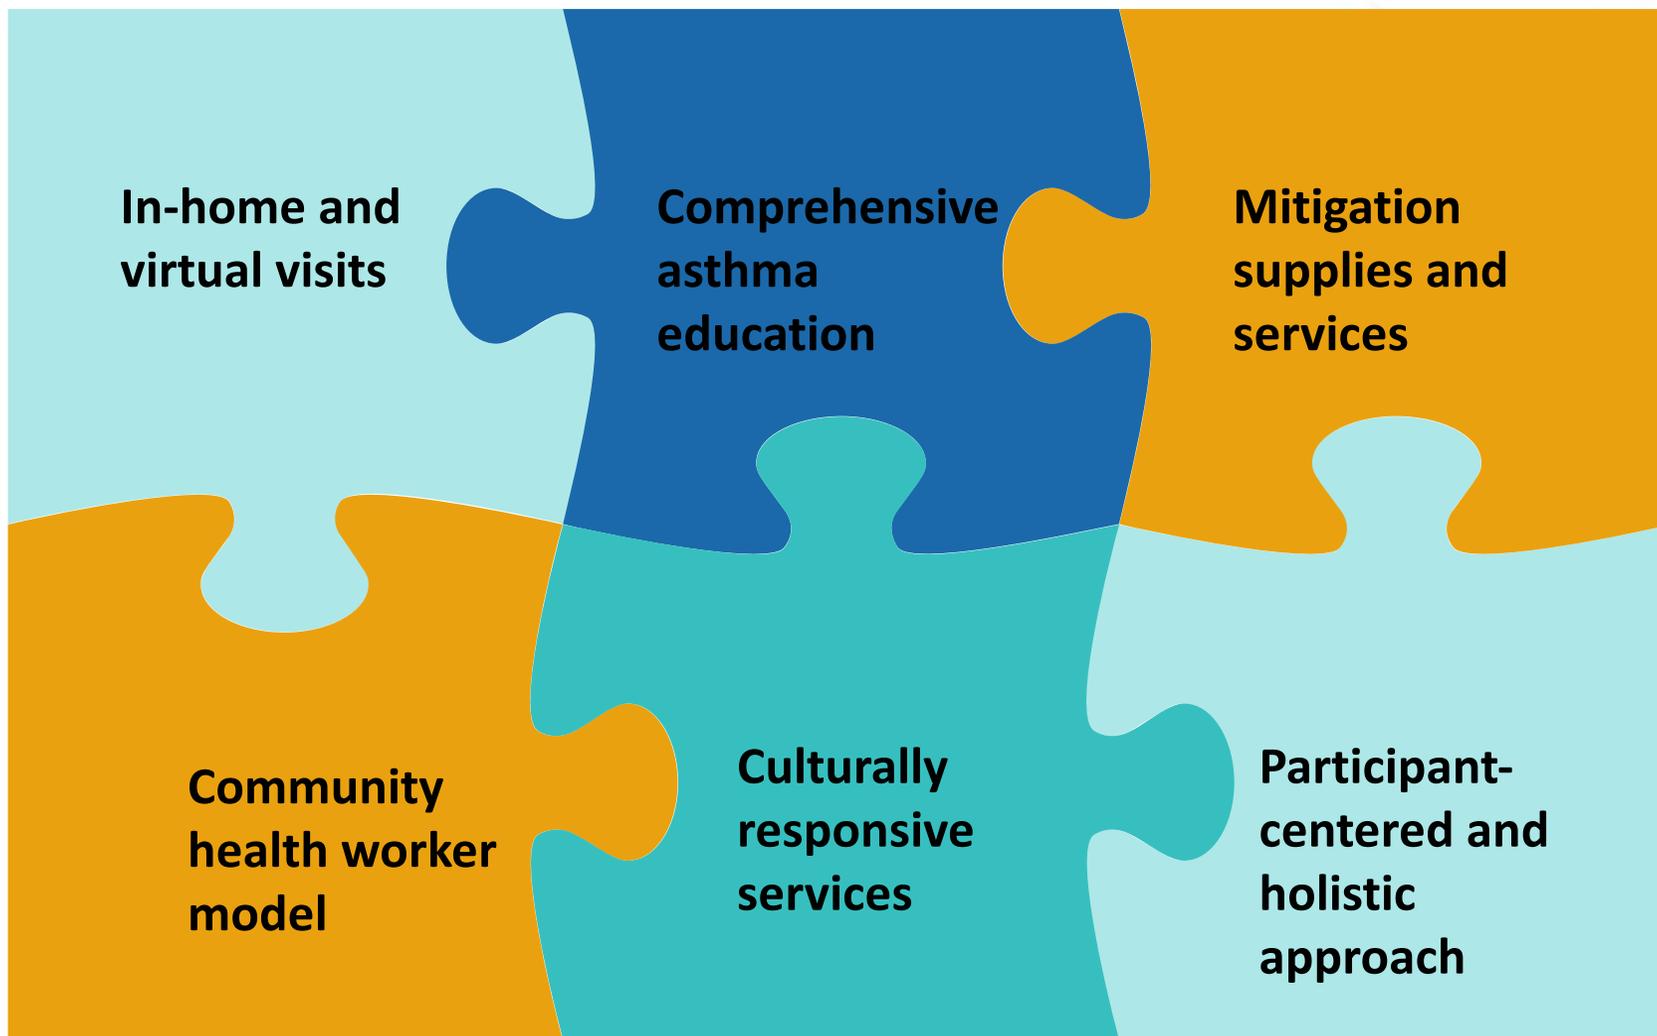

- Use data to prioritize in-home IEDOH interventions
- Use the proven intervention of asthma home visiting
- Make these interventions more sustainable through policy and systems change
- Develop partnerships across sectors

## Use the proven intervention of asthma home visiting

# Policy and systems change

## Policy Successes in California

Asthma Preventive Services:  
State Plan Amendment (SPA)

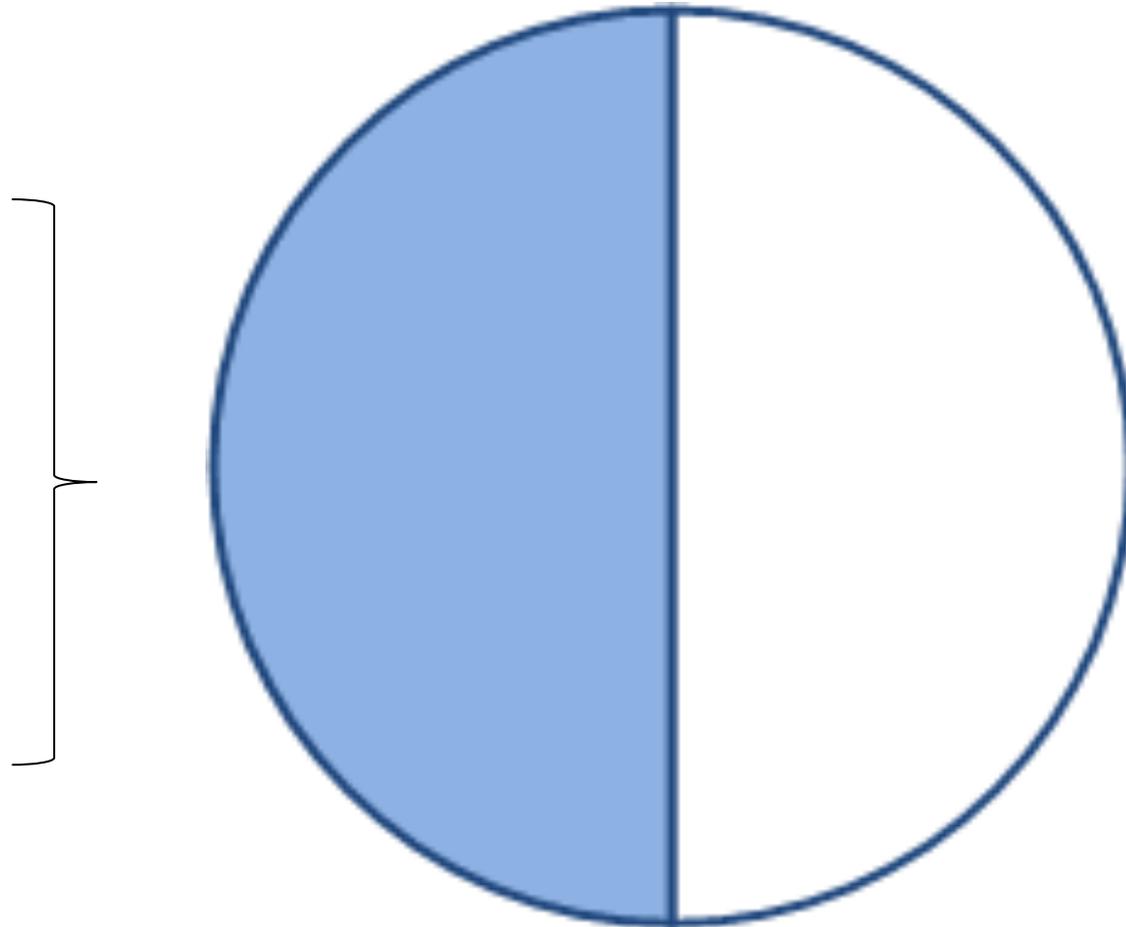

Asthma Remediation:  
Community Supports

## Comprehensive Asthma Home Visiting Services

### *Asthma Preventive Services SPA*

- Education
- Home trigger assessment

### *Asthma Remediation / Community Supports*

- Trigger remediation supplies
- Trigger remediation services

# What were the keys to success?

- Persistence
- Agency engagement
- Partnerships

*PSR and Partnerships*

2015

California Forum on Sustainable In-Home Asthma Management and the formation of CAF

*State Plan Amendment*

2016

Details, details, details

*AB 391*

2017

Hearings  
Letters of support  
Meetings with legislators

2015

*The State Budget*

2018

Like legislation but less transparent

*\$15M Win*

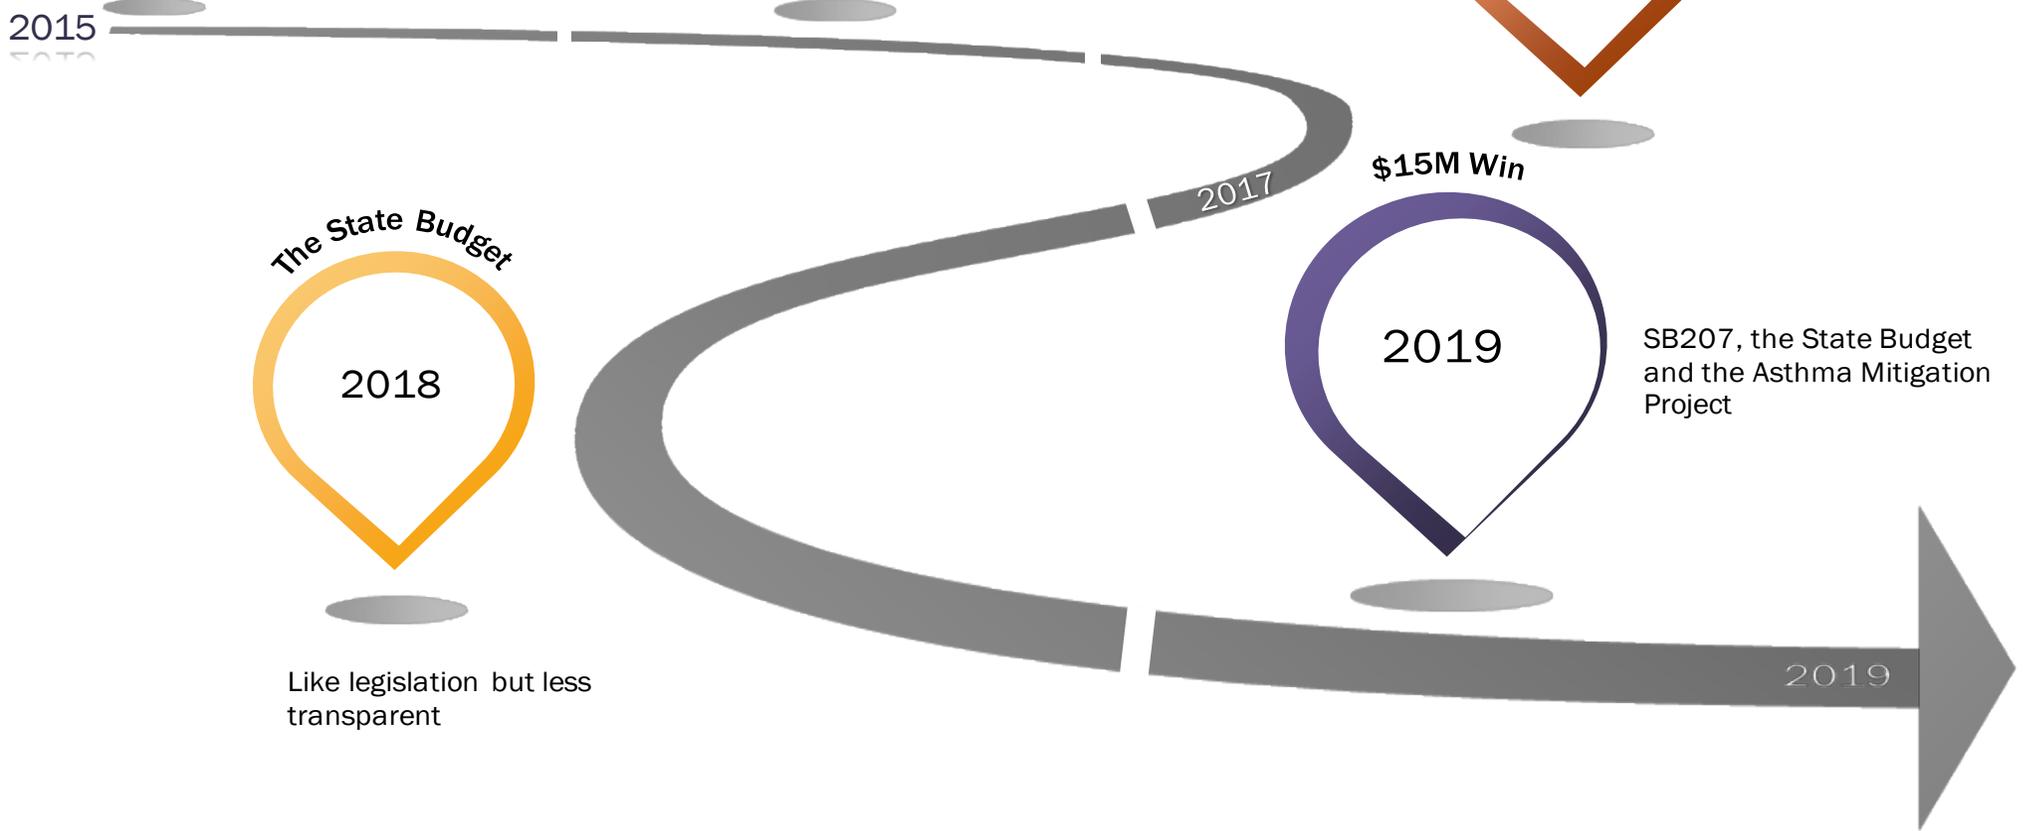

2019

SB207, the State Budget and the Asthma Mitigation Project

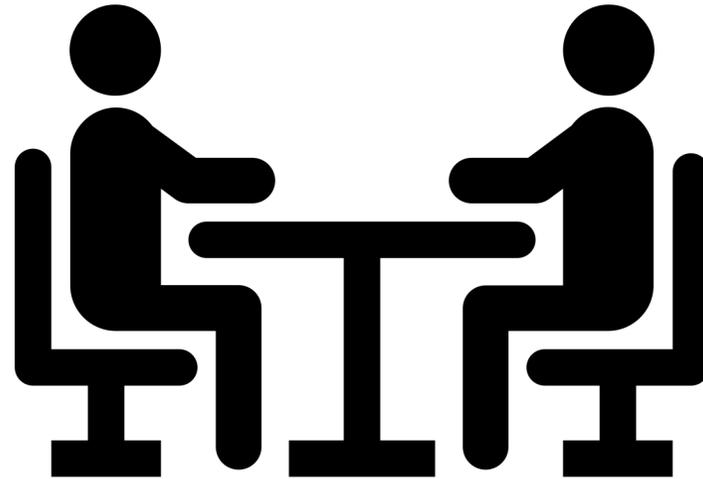

2017

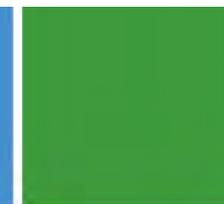

2019

**2020-  
2023**

# Agency engagement
